

## Pale Ale

Pale ales are usually yellow to golden in colour and straddle the realm between blondes and IPAs. Less bitter than the latter, some have malt driven flavours, while others may be slightly more hoppy, all while staying easy drinking. Annex Ales Forward Progress and Long Hop Hazy Pale Ale are both hazy and full of citrus and other tropical notes. *Dave Nuttall*

### BEST IN CLASS (TIE)

**Annex Forward Progress**  
Alberta, Canada  
\$16-18 (4-pack cans)  
CSPC 807097
