

Gin is on a roll. Not only is the category exploding, it's filled with brash new bottlings, in almost every shade of the rainbow. High quality gins are made in every country—the UK, Italy, Spain, Germany, the US and Canada. Find classic London Dry styles for a traditional G&T, infused styles for innovative cocktails and oak-aged gins for whisky lovers. What's next? Alt gin, distilled products that taste like gin but have no alcohol. *Mary Bailey*
