

White Single Varieties

To win an award for a single variety wine is no mean feat. The judges are not comparing one wine to another here; it's possibly the least subjective category of all. Judges are looking for typicity, and drawing on their years of experience as wine tasters to ask themselves: is this a good example of its type? We were thrilled this year to see white single variety entries from all over the world, with top spot going closest to home! *Linda Garson*

BEST IN CLASS
